How to use this calendar

Do not try to cover every date. Pick the ones that fit your audience and build each one around a single idea.

01 **Pick 6–8 moments**

Choose the dates that fit your sport, your fans and your sponsors. Skip the rest.

02 **Work backwards**

Plan the countdown a week before, the live content on the day and a recap within 24 hours.

03 **One idea, one call to action**

Decide in advance whether the goal is views, followers, tickets or sponsor value.

04 **Use your own footage first**

Training, tunnel, travel and dressing room. Original content tends to beat reposted clips. Test it and judge by engagement rate, not raw views.

About the dates. “Confirmed” means we found the date in at least one published source on 25 October 2026. “Fixed date” never changes. “Expected”, “Reported” and “Scheduled” dates must be checked with the official organiser before you schedule anything. Content angles are suggestions, not proven formulas.
